

coronavirus absence quick guide

what to do if

My child has coronavirus symptoms

My Child has tested positive for coronavirus

Somebody my child lives with has coronavirus symptoms

Somebody your child lives with has tested positive for coronavirus

Test and trace have told me that my child has had 'close contact' with somebody with a confirmed case of coronavirus

My child/we have travelled and have to self-isolate

Should I get a test

action

- » Your child shouldn't attend School
- » Your child should get a test
- » Your whole household self-isolates while waiting for a test result
- » Inform the school immediately about test result
- » Access online learning if well enough

- » Your child shouldn't attend School
- » Your child should self-isolate for at least 10 days from when symptoms started or date of test
- » Inform the school immediately about test result
- » Your household self-isolates for 14 days from when symptoms started or date of test
- » Access online learning if well enough

- » Your child shouldn't attend School
- » Household member with symptoms should get a test
- » Your whole household self-isolates while waiting for a test result
- » Inform the school immediately about test result
- » Access online learning

- » Your child shouldn't attend School
- » Your whole household self-isolates for 14 days from when symptoms started or from date of test
- » Access online learning

- » Your child shouldn't attend School
- » You should self-isolate for 14 days even if you test negative during the 14 days
- » Household doesn't need to self-isolate, unless they are deemed to have had 'close contact'
- » Inform the school
- » Access online learning

- » Check FCO advice before travelling
- » Your child shouldn't attend School
- » Your child should self-isolate for 14 days even if they test negative during the 14 days
- » Your household self-isolates for 14 days from when symptoms started or date of test
- » Access online learning

- » Only people with coronavirus symptoms should get a test
- » If your child does not have symptoms you are advised not to get a test, even if you are a 'close contact' of someone who has tested positive for coronavirus

back to School

When your child's test comes back negative and they are symptom free for 48 hours

When your child completes 10 days self-isolation and have been without a fever for at least 48 hours.
Your child can return to school even if they have a cough or loss of smell/taste. These symptoms can last for several weeks once the infection has gone

When household members test is negative, and your child does not have symptoms

When your child completes 14 days self-isolation, even if they test negative during the 14 days

When your child completes 14 days self-isolation, even if they test negative during the 14 days

When your child completes 14 days self-isolation, even if they test negative during the 14 days

As long as none of this applies to you please come back
