Eggs…periment!
(30min stamp per experiment)

There are some fantastic experiments (or should that be eggs-periment?) you can do with eggs! Here are some great ideas and for each experiment you do, you will earn a 30min stamp!

P.S Please make sure you complete these safely and under guidance from an adult!

Design and make an Easter basket
(1hr stamp)

For this challenge, you will need to design and make an Easter basket which will hold the weight of an egg (either a normal egg or a chocolate egg).

You will need to consider how big the basket needs to be to fit the egg and what materials you will use to create it.

Put on an Easter egg hunt
(1hr stamp)

We would love you to create an Easter egg hunt for your friends and/or family! You can choose whether you want to decorate real eggs, paper eggs or even chocolate eggs!

Have fun and remember to hide the eggs well!

We hope you enjoy completing these challenges and we can't wait to see what you do!
